

INNOVATION HUB

Navigating the harbour
of innovation

THESSALONIKI 2024
100th INTERNATIONAL SESSION

EUROPEAN **YOUTH** PARLIAMENT

THE THEME

The "Innovation Hub" serves as a beacon for aspiring young innovators, providing them with a dynamic platform to navigate the ever-changing seas of innovation. Anchored within the prestigious 100th International Session of the European Youth Parliament in Thessaloniki, this project is more than just a gathering—it's a transformative experience.

Our goal is to cultivate the promise of new discoveries. The "Innovation Hub" embodies a vibrant ecosystem where young minds converge with STEM Companies, research groups, and visionary teams, embarking on a journey of exploration, and forging connections with people, groups and ideas that can propel them towards innovation.

At the heart of the "Innovation Hub" are digital discussions that transcend geographical boundaries, enabling discussion on a global scale. Through virtual panel discussions and a physical event, participants engage in stimulating dialogue, sharing insights and perspectives that spark innovation.
